

## Game Rules (05/09/2024)

Note: The Lava Lava game is referred to as Lava Lava, The Game or Game.

- Lava Lava is a 3x5 game with 15 fixed lines, multiplier Wilds, Scatter explosions, an Avalanche feature, and a Bonus game with free spins. The theoretical return to player is 96.14%.
- A game round is started with the action button and plays the game with the selected play level.
- Auto play plays the game automatically for the number of game rounds selected in the auto play page. This feature may not be available.
- All game win amounts and win combinations are awarded according to the win table.
- All wins are presented and awarded in the selected coin type.
- Only the longest win per line is awarded, if in sequence from leftmost to right with no gaps and in combinations according to the win table.
- The Wild symbol substitutes for any other symbol except the Scatter symbol. Any line including a Wild symbol will have a multiplier based on the number of Wild symbols included in a line: 1 Wild symbol in a line grants a 2x multiplier 2 Wild symbols in a line grant a 4x multiplier 3 Wild symbols in a line grant an 8x multiplier 4 Wild symbols in a line grant a 16x multiplier 5 Wild symbols in a line grant a 32x multiplier
- Scatter explosion: Scatter symbols will explode and remove all other symbols (except Wild and other Scatter symbols) vertically and horizontally. When exploded, the Scatter symbol is collected to the Bonus meter.
- Avalanche feature: Symbols included in line wins are replaced with new and/or existing symbols dropping from above. This continues as long as there is a new line win or Scatter explosion. In the base game, the Avalanche feature is activated after a Scatter symbol lands on the reels. In the Bonus game, the Avalanche feature is active in every spin.
- When the Bonus meter is filled with 3 Scatter symbols and the Avalanche feature is not active, the Bonus game is won or retriggered, awarding 10 or 5 free spins respectively. The Bonus meter is reset between each spin and each free spin.
- In the beginning of each free spin, 1 to 3 Wild symbols will be randomly placed on the reels.
- In the Bonus game, each Wild symbol carries 3 lives protecting it from being exploded during the Avalanche feature. In every spin where the symbol is included in a line win, 1 life is consumed. When all lives are consumed, the Wild symbol will explode.
- The Bonus game is played with the same play level as the spin that triggered the Bonus Game.
- No play levels can be altered during a game round.
- In the event of game malfunction all affected play amounts and wins are discharged.
- All wins during a game round are added and presented at the end of the game round.
- The maximum total play multiplier for one game round is 10000. If this limit is reached the game round will be terminated and no additional wins will be awarded.
