

Game Rules (9/5/2024)

Note: The “Beat the Beast: Griffin’s Gold” video slot is referred to as Griffin’s Gold, The Game or Game.

- Griffin’s Gold is a 3x5 video slot with 9 pay lines. The game features Roaming Wilds, Wild Multiplier, and a Bonus Game with free spins. The theoretical return to player is 94.16%.
- A game round is started with the action button and plays the game with the selected bet level.
- No bets can be altered during a game round.
- The Auto Play function plays the game automatically for the number of game rounds selected in the Auto Play page. This feature may not be available.
- All game payouts and win combinations are paid out according to the pay table.
- Only the longest win per payline is paid out, if in sequence from leftmost to right with no gaps and in combinations according to the payable.
- Scatter pays are triggered by 3 or more Scatter symbols on any position on the reels and pay only for the highest amount of Scatters.
- All pay line and Scatter wins during a game round are added and presented at the end of the game round.
- All wins are presented and paid out in the selected currency.
- The Griffin Emblem symbol is a Scatter and a Wild and substitutes for any other symbols in the Base game. It can generate both Scatter pay and payline wins, according to pay table.
- 3 or more Griffin Emblem symbols on any position on the reels in the Base game trigger the Bonus game, awarding 10 free spins.
- Roaming Wilds: In the Bonus Game, the Roaming Wild symbol substitutes for any other symbol and will remain on the reels for the remainder of the Bonus game. Before each new free spin, it will roam to an adjacent position. Two or more Roaming Wild symbols cannot roam to the same position. Up to 3 Roaming Wild symbols can be awarded. A spin with one or more Roaming Wild symbols included in 1 or more winning paylines will award 1 extra free spin
- Wild Multiplier: The Roaming Wild symbol carries a multiplier starting at 1. After a spin where a Roaming Wild Symbol is included in one or more payline wins, its multiplier is increased by 1 (up to a maximum multiplier of 5). A win on a payline that includes one or more Roaming Wild symbols will be multiplied by their multipliers. E.g. a Roaming Wild symbol with a multiplier of 2 and one with a multiplier of 3 will give a total multiplier of 6 for that win. The maximum total multiplier from Roaming Wild symbols forming part of a single payline is x125 (5x5x5).
- The Bonus game is played with the same bet as the spin that triggered the Bonus game.
- In the event of game malfunction, all affected bets and pays are rendered void.
- The maximum total bet multiplier for one game round is 22222. If this limit is reached the game round will be terminated and no additional wins will be paid out.
- A feature buy option may be purchased at a cost that is a multiple of the current bet size. A purchase starts a spin with an outcome that triggers the Bonus Game. Theoretical RTP is 94.50%. All outcomes from a feature purchase pay according to the payable and in relation to the bet size. The feature buy functionality may not be available in all markets.
