Note: Split Happens video slot is referred to as Split Happens, The Game or Game.

- Split Happens is a 3x5 video slot with 10 fixed paylines, featuring Win Both Ways, Wilds, Walking Stacked Wilds, the Split Happens feature, and a Bonus Game with Free Spins, multipliers, and the Power Reset feature. The theoretical return to player is 94.16%.
- A game round is started with the action button and plays the game with the selected bet level.
- Auto play plays the game automatically for the number of game rounds selected in the auto play page. This feature may not be available.
- All game payout and win combinations are paid out according to the payable.
- Payouts are made for the longest win on a pay line from both left to right and right to left, without gaps, according to the pay table.
- The Wild symbols substitute for all other symbols except the Scatter symbol.
- The Walking Stacked Wilds feature triggers respins when a full stack of Wilds appears on reels 2–4. The Wild stack shifts left or right with each respin, based on its starting position. If a full stack lands on reel 3, the Split Happens feature activates, splitting the stack into two and moving them to reels 2 and 4, following the same respin process. Respins continue until no full stacks remain on the reels.
- The Bonus Game is triggered by collecting 3 Scatter symbols in the bonus meter and awards 5 Free Spins.
 - In the Bonus Game, a global Walking Stacked Wild multiplier (starting with a x1 multiplier) that increases by 1 with each respin. It is displayed outside the reels and applies to each winning payline that features a full wild stack.
 - The Power Reset activates when a full stack of Wilds lands, resetting the number of Free Spins. Respins do not affect the Free Spin count, and the Power Reset does not reset the multiplier.
- No bets can be altered during a game round.
- In the event of game malfunction all affected bets and pays are rendered void.
- All wins during a game round are added and presented at the end of the game round.
- The maximum total bet multiplier for one game round is 3000. If this limit is reached the game round will be terminated and no additional wins will be paid out.
- A BET+ option may be activated at a cost that is a multiple of the current bet size. When activated, each spin guarantees the specified event until you deactivate it. All outcomes from BET+ activation pay according to the payable and relation to the size of the base bet. BET+ functionality may not be available in all markets.
 - Bonus Boost: Each spin is 2 times more likely to trigger the Bonus Game, and costs 1.4 times the base bet. The theoretical RTP for this mode is 94.18%.
 - Bonus Boost Plus: Each spin is 5 times more likely to trigger the Bonus Game, and costs 2.5 times the base bet. The theoretical RTP for this mode is 94.22%.
- A feature buy option may be purchased at a cost that is a multiple of the current bet size. A purchase starts a spin with an outcome that triggers the Bonus Game. Theoretical RTP is 94.23%. All outcomes from a feature purchase pay according to the payable and in relation to the bet size. The feature buy functionality may not be available in all markets.
